

Basic In-Home Service – Description, Options, and Pricing

The basic service plan offers a special, customized menu for your family that your chef will prepare each visit day. Your chef will learn your dietary needs and preferences over the course of time, but the menu is totally customizable each and every week, i.e. if you are craving something specific, let them know!

Visit Day: The chef will prepare a two-course dinner consisting of a salad or appetizer and an entrée course (containing a protein, starch, and vegetable). The chef will also leave the kitchen clean and leave detailed instructions for heating the food. (Want a dessert? Swap your salad for a sweet treat or simply add on something special!). That day, the chef will also prepare a second entrée course (containing a protein, starch, and vegetable), package the food for easy reheating, and leave detailed instructions for reheating the food the next day.

To begin service, Atlanta Personal Chef Service may need to purchase some kitchen supplies on your behalf for use in your kitchen. Supplies needed may include: glass Tupperware, cutting boards, aluminum foil, plastic wrap, Zip-Lock bags, disposable gloves, etc. Disposable items will also be replenished on an as-needed basis throughout the course of your service and will be included with the cost of your groceries. The chef will visit your home according to the determined schedule.
